

Automated Vehicles: Consider Kids on the Road Ahead

Child passengers need our help to stay safe,
not just now, but in the future.

ASK:

How will we ensure child restraints are compatible with new vehicle designs?

ASK:

At what age can children ride safely alone in AVs?

ASK:

Who will be responsible for buckling children up properly on every ride?

ASK:

How will we ensure kids are supervised in case of emergency?

ASK:

Are there risks to children in and around parked autonomous vehicles?
