

Medicine Safety

High 5

a safety checklist

- Put all medicine up and away and out of sight and reach. Check for medicine in purses, nightstands, countertops and drawers.
- Keep medicine in its original child-resistant packaging.
- Save the Poison Help number – 1-800-222-1222 – in your phone and post it visibly at home.
- Instead of leaving medicine out for convenience, use safe reminder tools like cell phone alarms or medication schedules.
- Use the dosing device that comes with the medicine.
