

Water Safety
High 5
a safety checklist

- Before bath time begins, have the towel and anything else you may need ready so you don't have to leave your baby alone in the bath, even for a moment.
- Empty all tubs, buckets, containers and kiddie pools immediately after use. Store them upside down so they don't collect water.
- Sign your kids up for swimming lessons.
- Download a free Water Watcher card (see link below) to make sure someone is always watching the kids while swimming.
- Sign up for a CPR class so you are ready to help during an emergency.
