Safe Kids is committed to keeping you informed about recalls of products that can put kids at risk. The Safe Kids' recall center is a unique place where parents and caregivers can go to stay up to date on recalls of all child-related products. This report includes multiple products marketed to young kids that pose potential choking hazards.

Receive this report from a friend or colleague? Sign up here to get our monthly recall reports.

Three recalls of food products more likely to be on a kids' menu can be found on the right-hand-side. Here are links for all food/drug recall information announced by the Food and Drug Administration and the USDA Food Safety and Inspection Service.

**ANNOUNCEMENTS**

**Consumer Product Safety Standards Webinar with CPSC Consumer Ombudsman**

Join CPSC Consumer Ombudsman Jonathan Midgett for “Safety Central: How Consumers Contribute to Standards Development”, a one-hour webinar session to learn about standards development, the need for consumer participants, and ways to get involved. Standards are working behind the scenes to improve our lives, every day. Product standards aim to help reduce or prevent injuries. They are developed by thousands of volunteers who are experts in their relevant field—such as engineers and designers. Consumer advocates, victims of injuries or their survivors, government employees (federal, state, and local), those who work in testing laboratories, academic researchers, physicians, lawyers, and others also contribute. But greater involvement in standards setting from individual
consumers is critical to improving the safety of products that we all rely on, every day. You don’t have to be an expert – just a consumer who cares.

There will be two options for joining this session: Tuesday, October 25 at 2:00pm EST; and Thursday, October 27 at 11am EST. Attendees can join without RSVP here.

**TOP RECALLS**

**October 13, 2022 CPSC;** Newair recalled its Magic Chef Air Fryers because the air fryer can overheat, posing fire and burn hazards. Units: About 11,750.

**October 13, 2022 CPSC;** Ancheer recalled its e-bikes because the lithium-ion batteries can ignite, explode or spark, posing fire, explosion, and burn hazard to consumers. Units: About 22,000.

**October 13, 2022 CPSC;** Early Learning Centre Little Senses Lights & Sounds Shape Sorter Toys sold on Amazon recalled because the red cube can come apart or detach during use and release the small white ball inside the cube, posing a choking hazard to infants. Units: About 9,300.

**October 6, 2022 CPSC;** Target recalled its Hearth & Hand with Magnolia Tea Kettles because the paint can chip on the bottom of the recalled kettles, posing a fire hazard. In addition, the handle can break and/or the spout can leak, posing a risk of burn injuries. Units: About 12,800.

**September 29, 2022 CPSC;** BE Jewel Accessories recalled its Children’s Bowtie Hairclips because they contain levels of lead that exceed the federal lead content ban, posing a risk of adverse health issues if ingested by young children. Units: About 1,200.

**September 29, 2022 CPSC;** North States Industries recalled its Toddleroo Rotating Cabinet Latches because the latching button can dislodge and detach from the cabinet latches, posing a choking hazard to young children. Units: About 103,000.

**September 29, 2022 CPSC;** Custom Elevator recalled its residential elevators because young children can become entrapped in the space between the exterior landing door and the interior elevator car door or gate if there is a hazardous gap. Children who become entrapped can suffer serious injuries or death if the elevator is called to another floor.

**September 29, 2022 CPSC;** Cambridge Elevating Residential Elevators recalled its residential elevators because young children can become entrapped in the space between the exterior landing door and the interior elevator car door or gate if there is a hazardous gap. Children who become entrapped can suffer serious injuries or death if the elevator is called to another floor. Units: About 1,700.
RECALLS

October 13, 2022 CPSC; Children’s Sleepwear sold on Amazon recalled because the nightgowns fail to meet the flammability standards for children’s sleepwear, posing a risk of burn injuries to children. Units: About 450.

October 13, 2022 CPSC; U.P. Fashion recalled its Children’s Rings because the metal base of the ring contains levels of lead that exceed the federal lead content ban and, if ingested by young children, can cause adverse health issues. Units: About 1,800.

October 13, 2022 CPSC; Newair recalled its Magic Chef Air Fryers because the air fryer can overheat, posing fire and burn hazards. Units: About 11,750.

October 13, 2022 CPSC; U-Line recalled its Outdoor Series 24-inch Built-In Convertible Freezers because they can overheat, posing a fire hazard. Units: About 90.

October 13, 2022 CPSC; Ancheer recalled its e-bikes because the lithium-ion batteries can ignite, explode or spark, posing fire, explosion, and burn hazard to consumers. Units: About 22,000.

October 13, 2022 CPSC; Early Learning Centre Little Senses Lights & Sounds Shape Sorter Toys sold on Amazon recalled because the red cube can come apart or detach during use and release the small white ball inside the cube, posing a choking hazard to infants. Units: About 9,300.

October 13, 2022 CPSC; Children’s Bathrobes sold on Amazon recalled because the bathrobes fail to meet the flammability standards for children’s sleepwear, posing a risk of burn injuries to children. Units: About 9,200.

October 6, 2022 CPSC; Katadyn North American recalled its Optimus Gemini portable 2-burner stoves because the stove’s gas regulator can have a tear in the seal causing a gas leak, posing a fire hazard. Units: About 1,100 (an additional ~500 in Canada).

October 6, 2022 CPSC; Swift Industries recalled its 9-inch Swift Straps because the rubber straps that fasten the bicycle bag to the bicycle can break causing the bag to come loose and fall, posing crash hazard and injury hazards to the rider. Units: About 1,800.

October 6, 2022 CPSC; Target recalled its Hearth & Hand with Magnolia Tea Kettles because the paint can chip on the bottom of the recalled kettles, posing a fire hazard. In addition, the handle can break and/or the spout can leak, posing a risk of burn injuries. Units: About 12,800.
September 29, 2022 CPSC; Hyper Products recalled its Hyper Juice USB-C Battery Packs because they can overheat while charging, posing a fire hazard to consumers. Units: About 13,700 (an addition ~151 in Canada and ~7 in Mexico).

September 29, 2022 CPSC; Rockgeist Bar Jam Brackets recalled its bracket arms because the arms, attached to bicycle handlebars, can crack or break during use, causing the harness and gear to fall while the bicycle is in motion, posing a crash and injury hazards. Units: About 420.

September 29, 2022 CPSC; BE Jewel Accessories recalled its Children’s Bowtie Hairclips because they contain levels of lead that exceed the federal lead content ban, posing a risk of adverse health issues if ingested by young children. Units: About 1,200.

September 29, 2022 CPSC; Cambridge Elevating Residential Elevators recalled its residential elevators because young children can become entrapped in the space between the exterior landing door and the interior elevator car door or gate if there is a hazardous gap. Children who become entrapped can suffer serious injuries or death if the elevator is called to another floor. Units: About 1,700.

September 29, 2022 CPSC; North States Industries recalled its Toddleroo Rotating Cabinet Latches because the latching button can dislodge and detach from the cabinet latches, posing a choking hazard to young children. Units: About 103,000.

September 29, 2022 CPSC; Hyper Products recalled its HyperJuice Stackable GaN USB-C Chargers because the chargers can overheat, posing a fire hazard to consumers. Units: About 18,200 (an additional ~54 in Canada and ~4 in Mexico).

September 29, 2022 CPSC; Hillsdale Furniture recalled its Flynn Twin Full Bunk Beds with Ladders because the space between the second rung of the bed’s ladder and the lower bunk frame is wider than 3.5 inches, posing an entrapment hazard to children when the mattress is removed. Units: About 821.

September 29, 2022 CPSC; Custom Elevator recalled its residential elevators because young children can become entrapped in the space between the exterior landing door and the interior elevator car door or gate if there is a hazardous gap. Children who become entrapped can suffer serious injuries or death if the elevator is called to another floor.
This service collects recalls from the National Highway Traffic Safety Administration, Consumer Product Safety Commission, Food and Drug Administration and Food Safety and Inspection Service. Parents Central at NHTSA's safercar.gov is a go-to resource on car seats.

A few more reminders:

- Register all new car seats and booster seats. [https://go.pardot.com/e/957122/recalls-register-childseat-/8txxn/257565241?h=krDhLm1-6TBI_x-pV71Q-725Jd9cYs1IqFTE3sTv_4](https://go.pardot.com/e/957122/recalls-register-childseat-/8txxn/257565241?h=krDhLm1-6TBI_x-pV71Q-725Jd9cYs1IqFTE3sTv_4)
- Be careful about using hand-me-downs or buying children’s products at a secondhand shop or yard sale.
- It violates federal law to sell recalled products. If you know of an unsafe product, you can report it to the CPSC.
