Safe Kids is committed to keeping you informed about recalls of products that can put kids at risk. The Safe Kids’ recall center is a unique place where parents and caregivers can go to stay up to date on recalls of all child-related products. This report includes more than 70 million liquid candies that pose a choking hazard to children.

Are you new to our recall list and worried about products you may have missed? Past editions of Safe Kids Product Recalls newsletter can be found here under the Recalls section of our website.

**Updates to the Food Recalls**
Three recalls of food products more likely to be on a kids’ menu can be found on the right-hand-side. Here are links for all food/drug recall information announced by the Food and Drug Administration and the USDA Food Safety and Inspection Service.

**ANNOUNCEMENTS**

**Consumer Product Safety Commission (CPSC) Proposes Safety Requirements for Nursing Pillows**
While nursing pillows can assist parents and caregivers in correctly positioning babies for breastfeeding, these products can be misused for infant sleep.
Between 2012 and 2022, there were 154 deaths involving nursing pillows. The Commission voted unanimously on a proposal to address the hazardous use of these products for infant sleep while allowing parents and caregivers to continue benefiting from nursing pillow’s intended use. The CPSC is taking steps to advance proposed changes that aim to discourage resting babies to sleep on these products and require that nursing pillows be “sufficiently firm” to reduce the risk of suffocation.

TOP RECALLS

October 26, 2023 CPSC; Dorel Juvenile Group recalled its Cosco Jump, Spin & Play Activity Centers because the straps can detach or break while a child is in the activity center, posing fall and injury hazards to the child. Units: About 115,700.

October 26, 2023 CPSC; Best Buy recalled its Insignia pressure cookers because the pressure cooker has incorrect volume markings on the inner pot. This can cause consumers to overfill the pot and hot foods and liquids to be ejected when the pressure cooker is vented using the quick release method or opened while its contents are pressurized, posing a burn hazard to consumers. Units: About 930,000.

October 19, 2023 CPSC; Fisher-Price recalled its Thomas & Friends Wooden Railway Troublesome Truck & Crates and Thomas & Friends Wooden Railway Troublesome Truck & Paint because the small plastic piece contains a high-powered magnet that can detach or become loose, posing choking and magnet ingestion hazards. Units: About 21,000 (an additional ~400 in Canada).

October 19, 2023 CPSC; Fortress Safe recalled its Biometric Gun Safes because the biometric lock can be opened by unauthorized users, posing a serious injury hazard and risk of death. Units: About 61,000.

October 12, 2023 CPSC; Little Sleepies recalled its Sleepyhead Loveys and Bandana Bibs because the care instruction label on the bib can detach, posing a choking hazard to young children. Units: About 450,000 (an additional ~3,331 in Canada).

October 12, 2023 CPSC; The FORT recalled its Children’s Play Tents because the magnet used to connect the various pieces of the fort can become dislodged from their pouches, posing choking and laceration hazards to young children. Units: 13,250.

October 5, 2023 CPSC; The Rene Rofe Girl Children’s Blanket Sleepers and Robes sold online at Amazon.com, Fashionnova.com, Rue.lala.com, and at children’s clothing stores nationwide have been recalled because they fail to meet the federal flammability standards for children’s sleepwear, posing a risk of burn injuries to children. Units: About 38,700.
October 5, 2023 CPSC: Cocco Candy and KGR Distribution recalled its Cocco Candy Rolling Candy because the candy’s rolling ball can dislodge from the product into a child’s mouth, posing a choking hazard or death. Units: About 145,800.

October 5, 2023 CPSC: Candy Dynamics recalled its Slime Licker Sour Rolling Liquid Candy because the candy’s rolling ball can detach from the product’s container into a child’s mouth, posing a choking hazard for consumers. Units: About 70 million.

September 29, 2023 CPSC: Future Motion recalled its Onewheel Electric Skateboards (all models) because the skateboards can stop balancing the rider if the boards’ limits are exceeded, posing a crash hazard that can result in serious injury or death. Units: About 300,000.

September 28, 2023 CPSC: Rust-Oleum recalled its Rust-Oleum Professional Fluorescent Pink Inverted Marking Spray Paint cans because the spray valve assemble can detach with force, posing an impact injury hazard. Units: About 84,000.

September 28, 2023 CPSC: Nutraceutical recalled its Solaray Liposomal Multivitamins because the dietary supplements contain iron but the packaging is not child-resistant, posing a risk of poisoning if the contents are swallowed by young children. Units: About 85,300.

October 26, 2023 CPSC: Dorel Juvenile Group recalled its Cosco Jump, Spin & Play Activity Centers because the straps can detach or break while a child is in the activity center, posing fall and injury hazards to the child. Units: About 115,700.

October 26, 2023 CPSC: Best Buy recalled its Insignia pressure cookers because the pressure cooker has incorrect volume markings on the inner pot. This can cause consumers to overfill the pot and hot foods and liquids to be ejected when the pressure cooker is vented using the quick release method or opened while its contents are pressurized, posing a burn hazard to consumers. Units: About 930,000.

October 19, 2023 CPSC: Polaris recalled its Model Year 2023 RZR PRO XP and PRO XP 4 and Model Year 2024 RZR XP and XP 4 ROVs because the improperly routed brake line can contact the front wheels during operation resulting in brake line damage and brake loss, posing a crash hazard. Units: About 2,500 (an additional ~170 in Canada).

October 19, 2023 CPSC: Fisher-Price recalled its Thomas & Friends Wooden Railway Troublesome Truck & Crates and Thomas & Friends Wooden Railway Troublesome Truck & Paint because the small plastic piece contains a high-powered magnet that can detach or become loose, posing choking and magnet...
ingestion hazards. Units: About 21,000 (an additional ~400 in Canada).

October 19, 2023 CPSC; Fortress Safe recalled its Biometric Gun Safes because the biometric lock can be opened by unauthorized users, posing a serious injury hazard and risk of death. Units: About 61,000.

October 12, 2023 CPSC; Family Health Products recalled its Crystal Clear Sodium Hydroxide Products sold exclusively on Amazon because the packaging of the product is not child resistant, posing a risk of chemical burns and irritation to the skin and eyes. Units: About 570.

October 12, 2023 CPSC; YourHealth Toolkit recalled its 5-pound children’s weighted blankets because a young child can become entrapped by unzipping and entering the blanket, posing a risk of death by asphyxiation. Units: About 280.

October 12, 2023 CPSC; The Gevi Household Countertop Nugget Ice Makers sold exclusively on Amazon have been recalled because the metal blades of the auger of the ice maker can break, resulting in small pieces of metal going into the ice basket, posing a laceration hazard. Units: About 8,800.

October 12, 2023 CPSC; Little Sleepies recalled its Sleepyhead Loveys and Bandana Bibs because the care instruction label on the bib can detach, posing a choking hazard to young children. Units: About 450,000 (an additional ~3,331 in Canada).

October 12, 2023 CPSC; The FORT recalled its Children’s Play Tents because the magnet used to connect the various pieces of the fort can become dislodged from their pouches, posing choking and laceration hazards to young children. Units: 13,250.

October 5, 2023 CPSC; CURiO recalled its Capri Blue Pet Sprays and Shampoos because the products contain bacteria that can enter the body if inhaled, through the eyes, or through a break in the skin and pose a risk of serious infection to people with weakened immune systems of external medical devices. Units: About 59,000.

October 5, 2023 CPSC; The Rene Rofe Girl Children’s Blanket Sleepers and Robes sold online at Amazon.com, Fashionnova.com, Ruelala.com, and at children’s clothing stores nationwide have been recalled because they fail to meet the federal flammability standards for children’s sleepwear, posing a risk of burn injuries to children. Units: About 38,700.

October 5, 2023 CPSC; Cocco Candy and KGR Distribution recalled its Cocco Candy Rolling Candy because the candy’s rolling ball can dislodge from the product into a child’s mouth, posing a choking hazard or death. Units: About 145,800.

October 5, 2023 CPSC; Candy Dynamics recalled its Slime Licker Sour Rolling Liquid Candy because the candy’s rolling ball can detach from the product’s container into a child’s mouth, posing a choking hazard for consumers. Units: About 70 million.
October 5, 2023 CPSC; Russound recalled its MCA-88 Multizone Controller Amplifiers because the internal circuit board components can overheat, posing a fire hazard. Units: About 3,170 (an additional ~245 in Canada).

September 29, 2023 CPSC; Future Motion recalled its Onewheel Electric Skateboards (all models) because the skateboards can stop balancing the rider if the boards’ limits are exceeded, posing a crash hazard that can result in serious injury or death. Units: About 300,000.

September 28, 2023 CPSC; Secura recalled its Secure Air Fryers because a wire connection in the air fryer can overheat, posing fire and burn hazards. Units: About 6,400 (an additional ~680 in Canada).

September 28, 2023 CPSC; Rust-Oleum recalled its Rust-Oleum Professional Fluorescent Pink Inverted Marking Spray Paint cans because the spray valve assemble can detach with force, posing an impact injury hazard. Units: About 84,000.

September 28, 2023 CPSC; Nutraceutical recalled its Solaray Liposomal Multivitamins because the dietary supplements contain iron but the packaging is not child-resistant, posing a risk of poisoning if the contents are swallowed by young children. Units: About 85,300.

September 28, 2023 CPSC; Procter & Gamble recalled its Zevo Fly, Gnat and Fruit Fly Flying Insect Killer3 Value Packs because the aerosol containers can rupture and leak, posing injury and laceration hazards. Units: About 8,600.

September 28, 2023 CPSC; Trek Bicycle Corporation recalled its Trek Allant+ 7 bicycles with Tektro brakes because the rear brake hose can kink and break when turning the handlebars causing the rider to lose control of the bike, posing a crash hazard. Units: About 7,000.

This service collects recalls from the National Highway Traffic Safety Administration, Consumer Product Safety Commission, Food and Drug Administration and Food Safety and Inspection Service. Parents Central at NHTSA’s safercar.gov is a go-to resource on car seats.

A few more reminders:

- Register all new car seats and booster seats. [https://go.pardot.com/e/957122/recalls-register-childseat-dhxyj/649768212/h/Hi5NWw22Cc62CUIXYFaqLjqM3mrBB9oVB4wtZPkaodM]
- Be careful about using hand-me-downs or buying children’s products at a secondhand shop or yard sale.
- It violates federal law to sell recalled products. If you know of an unsafe product, you can report it to the CPSC. [https://go.pardot.com/e/957122/-]
