November 2023

Safe Kids is committed to keeping you informed about recalls of products that can put kids at risk. The Safe Kids’ recall center is a unique place where parents and caregivers can go to stay up to date on recalls of all child-related products. This report includes a nationwide cantaloupe recall that puts young children at risk of salmonella.

# ANNOUNCEMENTS

**CPSC Warns Consumers About Two Products**

This month, the CPSC has issued warnings cautioning consumers to immediately stop using two potentially harmful products. These [Miracle Baby Loungers](#) violate the federal safety regulation for infant sleep products, posing a risk of suffocation and a fall hazard to infants. Consumers should also stop using the [Mollys Products’](#) sodium hydroxide products because they do not comply with the child resistant packaging requirements under the Poison Prevention Packaging Act, posing a risk of chemical burns and irritation to the skin and eyes.

**Cantaloupe Salmonella Outbreak**

The CDC has provided details regarding an outbreak of Salmonella that has led to two deaths in Minnesota. The FDA has recalled all Malichita and Rudy Brand Cantaloupes due to potential salmonella contamination, posing a risk of serious and sometimes fatal infection in young children and others with weakened immune systems. There have been reports of illness in 32 states. The CDC is advising people not to eat, sell, or serve recalled whole and pre-cut cantaloupes.

# TOP RECALLS

**November 22, 2023 CPSC:** PandaEar recalled its Stainless Steel Toddler Cups because the bottom exterior of the cups contains an accessible solder bead with levels of lead that exceed the federal lead content ban. In addition, the lid can crack and break during use producing sharp edges and small parts, posing choking and laceration hazards to children. Units: About 1,600.

**November 21, 2023 NHTSA:** Honda (American Honda Motor Co.) recalled certain 2023-2024 Accord and HR-V vehicles because a seat belt pretensioner missing a rivet will not properly restrain the occupant, increasing the risk of injury during a crash. Units: About 303,770.

**November 16, 2023 CPSC:** Target recalled its Hearth & Hand with Magnolia 13-
Piece Toy Mushroom Peg Sorters because the stems of the toy mushrooms can detach, posing a choking hazard to young children. Units: About 1,850.

**November 13, 2023 FDA;** KinderFarms, LLC recalled all lots of KinderMed Infants’ Pain & Fever and KinderMed Kids’ Pain & Fever products because ongoing testing of sample batches indicated some product lots were no longer in specification and may pose a health risk.

**November 9, 2023 CPSC;** IKEA recalled its LETTAN mirrors because the plastic fittings that attach the mirror to the wall can break, causing the mirror to fall, posing a laceration hazard to consumers. Units: 14,600 (an additional ~10,500 in Canada).

**November 9, 2023 CPSC;** iMOONZZZ recalled its children’s nightgowns fail to meet the flammability standards for children’s sleepwear, posing a risk of burn injuries to children. Units: About 13,300.

**November 2, 2023 CPSC;** UncleWu Life recalled its infant bath seats because they fail to meet the federal safety regulation for infant bath seats, including requirements for stability and leg openings, and can tip over while in use, posing a drowning hazard to babies. Units: About 360.

**November 2, 2023 CPSC;** Yoocaa recalled its baby loungers because they fail to meet the safety requirements of CPSC’s Infant Sleep Products Rule, creating an unsafe sleeping environment for infants and posing a suffocation risk and fall and entrapment hazards to infants. Units: About 4,140.

---

**RECALLS**

**November 22, 2023 CPSC;** Worthington Industries recalled its Balloon Time Mini Helium Tanks because compressed helium can escape and cause the plastic cap to be released into the air unexpectedly, posing an injury hazard due to projectiles striking users and bystanders. Units: About 121,100.

**November 22, 2023 CPSC;** Lenovo recalled its USB-C Laptop Power Banks because internal screws can come loose, causing a short circuit and overheating of the lithium-ion battery, posing a fire hazard. Lithium-ion batteries can cause fires and explosions if they are damaged or crushed and are a hazard when thrown in the trash. Units: About 2,850 (an additional ~510 in Canada).

**November 22, 2023 CPSC;** PandaEar recalled its Stainless Steel Toddler Cups because the bottom exterior of the cups contains an accessible solder bead with levels of lead that exceed the federal lead content ban. In addition, the lid can crack and break during use producing sharp edges and small parts, posing choking and laceration hazards to children. Units: About 1,600.

**November 22, 2023 CPSC;** MI Windows and Doors recalled its Vinyl Sliding Glass Doors because the glass can separate from the frame during hurricane conditions which can pose a serious injury hazard. Units: About 1,900.
**November 21, 2023 NHTSA;** Honda (American Honda Motor Co.) recalled certain 2023-2024 Accord and HR-V vehicles because a seat belt pretensioner missing a rivet will not properly restrain the occupant, increasing the risk of injury during a crash. Units: About 303,770.

**November 16, 2023 CPSC;** Khaite recalled Women's high heeled sandals because the heels on the shoes can detach, posing a fall hazard. Units: About 1,860.

**November 16, 2023 CPSC;** Tractor Supply Company recalled its Red Shed® Hammock Swing Chairs because a plastic buckle that supports the back of the chair can break when a consumer is seated in the chair, posing a fall hazard. Units: About 7,500.

**November 16, 2023 CPSC;** Target recalled its Hearth & Hand with Magnolia 13-Piece Toy Mushroom Peg Sorters because the stems of the toy mushrooms can detach, posing a choking hazard to young children. Units: About 1,850.

**November 16, 2023 CPSC;** Stainless Steel Children's Cups sold exclusively on Amazon by LAOION recalled because the bottom exterior of the stainless-steel cups contains an accessible solder bead with levels of lead that exceed the federal lead content ban. Units: About 200.

**November 13, 2023 FDA;** KinderFarms, LLC recalled all lots of KinderMed Infants’ Pain & Fever and KinderMed Kids’ Pain & Fever products because ongoing testing of sample batches indicated some product lots were no longer in specification and may pose a health risk.

**November 9, 2023 CPSC;** IKEA recalled its LETTAN mirrors because the plastic fittings that attach the mirror to the wall can break, causing the mirror to fall, posing a laceration hazard to consumers. Units: 14,600 (an additional ~10,500 in Canada).

**November 9, 2023 CPSC;** Twin-Star International recalled Style Selections 42-inch-wide Infrared Quartz Electric Fireplaces because they can overheat, posing a fire hazard. Units: About 14,670.

**November 9, 2023 CPSC;** iMOONZZZ recalled its children’s nightgowns all to meet the flammability standards for children’s sleepwear, posing a risk of burn injuries to children. Units: About 13,300.

**November 9, 2023 CPSC;** Magnolia Market recalled its 26 oz. 3-Wick Glass Candles because they were manufactured with the incorrect wax, which can cause excessive flames on the wicks and cause the glass candle containers to break, posing fire and laceration hazards. Units: About 4,350.

**November 2, 2023 CPSC;** Dixon Ticonderoga recalled its Creativity Street Assorted Craft Buttons because the children's craft buttons contain levels of lead that exceed the federal lead content ban. Lead is toxic if ingested by young children and can cause adverse health effects. Units: About 890.
November 2, 2023 CPSC; Murf recalled its electric bicycles because they do not meet the U.S. safety standard, posing fall and injury hazards to the rider. Units: About 9,000.

November 2, 2023 CPSC; UncleWu Life recalled its infant bath seats because they fail to meet the federal safety regulation for infant bath seats, including requirements for stability and leg openings, and can tip over while in use, posing a drowning hazard to babies. Units: About 360.

November 2, 2023 CPSC; Yoocaa recalled its baby loungers because they fail to meet the safety requirements of CPSC’s Infant Sleep Products Rule, creating an unsafe sleeping environment for infants and posing a suffocation risk and fall and entrapment hazards to infants. Units: About 4,140.

This service collects recalls from the National Highway Traffic Safety Administration, Consumer Product Safety Commission, Food and Drug Administration and Food Safety and Inspection Service. Parents Central at NHTSA’s safercar.gov is a go-to resource on car seats.

A few more reminders:

- Register all new car seats and booster seats. https://go.pardot.com/e/957122/recalls-register-childseat-dlkkm/684855069/h/0S5fm4nFGE0GrH3TtYZ8NiuBHJKHIG5qHEOM3JXHrA
- Be careful about using hand-me-downs or buying children’s products at a secondhand shop or yard sale.
- It violates federal law to sell recalled products. If you know of an unsafe product, you can report it to the CPSC. https://go.pardot.com/e/957122/-Incidents-ReportIncident-aspx/dlkkq/684855069/h/0S5fm4nFGE0GrH3TtYZ8NiuBHJKHIG5qHEOM3JXHrA
