Updates to the Food Recalls
Four recalls of food products more likely to be on a kids’ menu can be found on the right-hand-side. Here are links for all food/drug recall information announced by the Food and Drug Administration and the USDA Food Safety and Inspection Service.

ANNOUNCEMENTS

CPSC Warns Consumers About Two Products
This month, the CPSC has issued warnings cautioning consumers about two potentially harmful products. They advise consumers to immediately stop using the “La-La-Me Infant Loungers” because they do not comply with mandatory federal safety standards for infant sleep products, posing a suffocation risk and fall hazard to infants. Consumers should also immediately stop using “Iraza High-Powered Magnetic Ball Sets” because the 512 Piece 5mm Magnetic Ball Sets pose a risk of serious injury or death if ingested. CPSC testing found that the sets violate the requirements of the mandatory federal safety standard for magnets. When loose, high-powered magnets are swallowed, they can attract to each other, or to another metal object, and become lodge in the digestive system.

TOP RECALLS

August 17, 2023 CPSC; Zipadee Kids recalled its Kids Convertible House Bed Frames and Montessori Floor Beds because the spindles used on the recalled beds are spaced at a distance that creates a serious entrapment hazard that can lead to strangulation and/or death to children. The design of the bed allows a child’s torso to slip through the rail opening but will not allow their head to pass, posing entrapment and strangulation hazards that could result in death. Units: About 7,450.

August 17, 2023 CPSC; The Simplay3 Company recalled its Toddler Towers because the towers can tip over while in use posing fall and injury hazards to young children. Units: About 108,450 (an additional ~5,512 in Canada).

August 16, 2023 CPSC; Gree recalled its dehumidifiers because they can overheat, smoke, and catch fire, posing fire and burn hazards to consumers. Units: About 1.56 million.

August 10, 2023 CPSC; Target recalled its Threshold Glass Jar Candles because
the candle’s jar can crack or break during use, posing laceration and burn hazards. Units: About 2.2 million.

**August 10, 2023 CPSC;** Sensio recalled its Electric and stovetop pressure cookers because the pressure cooker’s lid can unlock and be removed during use, causing the hot contents to unexpectedly splash out, posing a burn hazard to consumers. Units: About 860,000.

**August 10, 2023 CPSC;** The Children’s Place recalled its Baby and Toddler Boy Basic Stretch Straight Leg Jeans because the metal snaps on the jeans can detach, posing a choking hazard to young children. Units: About 97,400 (an additional ~1,800 in Canada).

**August 10, 2023 CPSC;** Restwell Mattress recalled its Room & Board Natural Organic Latex and Latex and Spring Crib Mattresses because the mattresses fail to comply with multiple provisions of the Federal Safety Standard for Crib Mattresses, including the firmness test and missing warnings and labels. The product poses a suffocation hazard to infants. Units: About 100.

**August 3, 2023 CPSC;** Maggie’s Farm recalled 14 oz Aerosol Bed Bug & Flea Killer cans because the pressurized cans can rupture and expel shrapnel, posing injury and laceration hazards to consumers. In addition, leakage of contents can pose a risk of skin and eye irritation upon contact. Units: About 14,500.

**July 27, 2023 CPSC;** Soft Play recalled its Sky Wheels because they can become detached from the overhead rail on the play set, posing a fall hazard and risk of injury to children. Units: About 3,500.

**July 27, 2023 CPSC;** Philips Personal Health recalled its Philips Avent Digital Video Baby Monitors because the rechargeable lithium-ion batteries in the Parent Unit monitors can overheat during charging, posing a risk of burns and property damage. Units: About 12,850.

**RECALLS**

**August 24, 2023 CPSC;** Ecnup Kids Bike Helmets exclusively sold on Amazon have been recalled because they do not comply with the coverage, positional stability, and labeling requirements of the CPSC federal safety standard, posing a risk of head injury in the event of a crash. Units: About 215.

**August 17, 2023 CPSC;** Zipadee Kids recalled its Kids Convertible House Bed Frames and Montessori Floor Beds because the spindles used on the recalled beds are spaced at a distance that creates a serious entrapment hazard that can lead to strangulation and/or death to children. The design of the bed allows a child’s torso to slip through the rail opening but will not allow their head to pass, posing entrapment
and strangulation hazards that could result in death. Units: About 7,450.

**August 17, 2023 CPSC:** The Simplay3 Company recalled its Toddler Towers because the towers can tip over while in use posing fall and injury hazards to young children. Units: About 108,450 (an additional ~5,512 in Canada).

**August 17, 2023 CPSC:** Midwest Lubricants recalled its Sodium Hydroxide Products because the packaging of the products is not child resistant, posing a risk of chemical burns and irritation to the skin and eyes. Units: About 3,000.

**August 17, 2023 CPSC:** Costco recalled its UBio Labs Power Banks because they can overheat and ignite, posing a fire hazard. Units: About 350,000.

**August 16, 2023 CPSC:** Gree recalled its dehumidifiers because they can overheat, smoke, and catch fire, posing fire and burn hazards to consumers. Units: About 1.56 million.

**August 10, 2023 CPSC:** 13131 Imports recalled its “American Glory” and “Merica AF” fireworks because the recalled shell fireworks can explode prematurely, posing explosion and burn hazards to consumers and bystanders. Units: About 2,400.

**August 10, 2023 CPSC:** Target recalled its Threshold Glass Jar Candles because the candle’s jar can crack or break during use, posing laceration and burn hazards. Units: About 2.2 million.

**August 10, 2023 CPSC:** Sensio recalled its Electric and stovetop pressure cookers because the pressure cooker’s lid can unlock and be removed during use, causing the hot contents to unexpectedly splash out, posing a burn hazard to consumers. Units: About 860,000.

**August 10, 2023 CPSC:** The Children’s Place recalled its Baby and Toddler Boy Basic Stretch Straight Leg Jeans because the metal snaps on the jeans can detach, posing a choking hazard to young children. Units: About 97,400 (an additional ~1,800 in Canada).

**August 10, 2023 CPSC:** Restwell Mattress recalled its Room & Board Natural Organic Latex and Latex and Spring Crib Mattresses because the mattresses fail to comply with multiple provisions of the Federal Safety Standard for Crib Mattresses, including the firmness test and missing warnings and labels. The product poses a suffocation hazard to infants. Units: About 100.

**August 10, 2023 CPSC:** Saxco International recalled its Carboys because the glass can break due to improper cooling processes, posing a laceration hazard to consumers. Units: About 8,370.

**August 3, 2023 CPSC:** Daikin Comfort Technologies recalled its Amana Packaged Terminal Air Conditioners/Heat Pumps (PTACs) equipped with “DigiAir” modules because the module compressor can overheat, posing burn and fire hazards. Units:
About 62,100 (an additional ~302 in Canada).

August 3, 2023 CPSC; Crate and Barrel recalled its Avena Mini Table Lamps because a loose electrical cord connection in the lamps can pose a fire hazard. Units: About 600.

August 3, 2023 CPSC; Maggie’s Farm recalled 14 oz Aerosol Bed Bug & Flea Killer cans because the pressurized cans can rupture and expel shrapnel, posing injury and laceration hazards to consumers. In addition, leakage of contents can pose a risk of skin and eye irritation upon contact. Units: About 14,500.

July 27, 2023 CPSC; True Fitness recalled its Showrunner II Consoles Sold, with included wireless phone chargers, because an exposed area of the wireless charging board can come in contact with other internal wiring, posing a fire hazard. Unit: About 600.

July 27, 2023 CPSC; Soft Play recalled its Sky Wheels because they can become detached from the overhead rail on the play set, posing a fall hazard and risk of injury to children. Units: About 3,500.

July 27, 2023 CPSC; Philips Personal Health recalled its Philips Avent Digital Video Baby Monitors because the rechargeable lithium-ion batteries in the Parent Unit monitors can overheat during charging, posing a risk of burns and property damage. Units: About 12,850.

July 27, 2023 CPSC; American Honda recalled its Honda Model EU7000is Portable Generators because the fuel filler cap can improperly seal, resulting in fuel and/or fuel vapor leaking, posing a fire hazard. Units: About 250.

This service collects recalls from the National Highway Traffic Safety Administration, Consumer Product Safety Commission, Food and Drug Administration and Food Safety and Inspection Service. Parents Central at NHTSA’s safercar.gov is a go-to resource on car seats.

A few more reminders:

- Register all new car seats and booster seats. https://go.pardot.com/e/957122/recalls-register-childseat-dc8yg/580998022?h=kbCWMGhUSNR_FzHU6iHhkGOZtN53mVhcEUOq54FuUY
- Be careful about using hand-me-downs or buying children’s products at a secondhand shop or yard sale.
- It violates federal law to sell recalled products. If you know of an unsafe product, you can report it to the CPSC. https://go.pardot.com/e/957122/-Incidents-ReportIncident-aspx/dc8yk/580998022?
