ANNOUNCEMENTS
The CPSC has issued warnings regarding Male-to-Male Extension Cords and HECOPRO Digital Display Carbon Monoxide detectors, both sold on Amazon. They warn consumers to immediately stop using and discard the cords due to shock, electrocution, fire, and carbon monoxide poisoning hazards. These cords are typically used during power outages to connect generators to an outlet in the home. The CPSC also warns consumers that the CO detectors can fail to alert consumers to the presence of carbon monoxide.
