

Road Safety
High 5
a safety checklist

- Is your child's car seat installed correctly? Our **checklist** can help you tell, or visit safekids.org to find a certified car seat technician to help.
- Teach your children to ride their bikes on the right-hand side of the road, with traffic, and to use appropriate hand signals.
- Take the **pledge** to put phones, headphones and devices down when crossing the street.
- Register your child's car seat. If you don't have the registration card, you can **register online**.
- Walk the route your child takes to school to practice crossing and make sure their path is safe.
